To Kammes Auto & Truck Customers:

Every day, there is new information regarding the COVID-19 Virus outbreak. For now, we are planning on working as usual and taking care of our loyal customers.

While we strive to get everyone's vehicle repaired as soon as possible, Emergency Vehicle and First Responder Vehicles will receive priority service which may cause a slight delay to other repairs.

There will be new procedures in place to protect our family here at Kammes and to protect you, our valued customer:

We are disinfecting all touched surfaces in the office, bathrooms and test lane.

We are wiping down customer's keys/fobs, steering wheels, shifters and door handles with sanitizing wipes before and after servicing the vehicle.

Our technicians will be wearing gloves and washing hands thoroughly.

We are asking people to not wait for their vehicle while it is being repaired and to make arrangements for it to be dropped off.

In return we are asking you, the customer:

Please do not bring your vehicle in if you are sick or have been ill.

Please take all of your trash, i.e. water bottles, fast food bags etc and dispose of before dropping your vehicle to us.

We are here to serve the community and plan to get through this hopefully soon.
